**20.4%**

December 21, 2024

**20.2%**

December 14, 2024

**20.1%**

December 7, 2024

## National Weather Service January to March 2025 Outlook: For the Lower Rio Grande Valley/Deep South Texas Region

---

- January-March 2025 is expected to average out warmer and drier than normal
- Drought/dryness concerns will increase through the Winter and early Spring Season, with cooler and especially drier air intrusions increasing
- Confidence remains high that total combined storage will remain at or near record lows through March
